A DIALOGUE ON DEVELOPING SUCCESSFUL, INTERDISCIPLINARY RESEARCH PARTNERSHIPS

University of Miami Professors Soyeon Ahn, Juan Chattah, & Barbara Millet will share their experiences building an effective research collaboration across their diverse disciplines. As recipients of the 2018 University of Miami Provost’s Research Award, this team from the School of Education & Human Development, Frost School of Music and School of Communication (respectively) is examining the effect of music on multimedia experiences. In this presentation and dialogue, they will share their insights on what worked for them, the rewards of interdisciplinary work, and how they are addressing real-world research questions in creative ways. Dr. Susan Morgan, Associate Provost for Research Development and Strategy at the University of Miami, will facilitate the session.
